

# Spill Containment Curbs

## 1. PRODUCT NAME

*Spill Containment Curbing*

## 2. MANUFACTURER

ACO Polymer Products, Inc.  
 12080 Ravenna Road, P.O. Box 245  
 Chardon, Ohio 44024  
 Tel: (440) 285 - 7000  
 (800) 543 - 4764  
 Fax: (440) 285 - 7005

## 3. PRODUCT DESCRIPTION

### Basic Uses:

ACO Spill Containment Curbing provides diking protection for hazardous spill problems covering wide areas.

Because polymer concrete (14,000 psi compressive strength) is three times stronger than conventional cement concrete and the containment curbing is designed with sloped profile, forklift trucks and other motor traffic can easily access storage areas without damaging the curbing.

**Limitations:** High speed traffic of any type. Please contact ACO's Technical Services Department for recommendations.

**Load Rating:** Forklift traffic, vehicular traffic - at low speeds, if installed properly according to manufacturer installation instructions.

**Harsh Chemicals:** Contact ACO Polymer Products Inc. Technical Services Department to determine what is the best resin base (polyester or vinyl ester) for your application.

### Composition and Materials:

ACO Spill Containment Curbing are made of high compressive strength polymer concrete.

**Color:** ACO Spill Containment Curbing are available in standard ACO polyester (light tan) and vinyl ester (gray) resin colors.

## 4. TECHNICAL DATA

*Dimensions / Weight:*

### Type I

Length: 39.37" (1000mm)  
 Width: 11.5"  
 Height: 2.3"  
 Weight: 54 lbs

### Type II

Length: 39.37" (1000mm)  
 Width: 23.5"  
 Height: 4.0"  
 Weight: 170 lbs

## 5. INSTALLATION

1. Locate and install all trench drains and sub floor plumbing prior to setting spill curbing in place.
2. Spill curbs must be cleaned before installing. Use a diamond blade grinder or similar grinding tool to remove (1/32" - 1/16") excess material from the bottom surface and ends of the spill containment curbing. Make sure the bottom of the curbing and concrete floor is dry.
3. When curbs are set end to end, installation spacers help align curbs and leaves 3/16" gap for injection of adhesive\*.

\*Use a chemical resistant grout or two-part adhesive suitable for the application to set curbing in place and seal gaps. Use a minimum 1/8" thickness to seal bottom of curbing.

4. If necessary, use a carborundum or diamond circular saw to cut curbing to required size. Always wear appropriate protection to avoid breathing dust generated from sawing. Do not attempt to score and break curbing.
5. Finish installation by filling seams and smoothing as necessary. Fill any gaps or holes to ensure a secure and clean containment area.
6. Allow a minimum of 16 - 24 hours of curing before use.

### 6. AVAILABILITY & COST

ACO Spill Containment Curbing is available from ACO Polymer Products, Inc. Call toll-free at (800) 543-4764 for pricing and your closest distributor.

### 7. WARRANTY

Products manufactured by ACO Polymer Products, Inc. are produced to meet the highest quality standards of the pre-cast polymer concrete industry. ACO Polymer Products, Inc. warrants its products to be free of defects for 1 year from date of installation. Under this warranty, we will provide, at no charge, replacement materials for any product proven to be defective when used in strict accordance with our published recommendations and in applications considered by us as suitable for this product. This warranty is in lieu of any and all other warranties, expressed or implied, and in no case will ACO Polymer Products, Inc. be liable for incidental or consequential damages.

### 8. MAINTENANCE

ACO Spill Containment Curbing system should be periodically checked to ensure adhesive bond between adjacent curbs and flooring is intact.

### 9. TECHNICAL SERVICES

ACO Technical Service representatives are available to help you with CAD layouts, answer technical questions as well as provide installation guideline and engineering analysis.

For further information or assistance, please call our Technical Services Department at (800) 543-4764.

### 10. FILING SYSTEMS

ACO Systems Manual.
